Harmony line

PLAN – CREATE – MODIFY

HarmonyLine is a concept of collaborative joinery design and matching it to the building's individual character, done by experts.

Discover a wide range of **WINDOWS, SHUTTERS, DOORS AND GARAGE DOORS** by DAKO, with which you will shape a unique, cohesive style for your home.

Harmony line

Bring harmony to your home

- **11 ready-made compositions**, which you can freely change and modify
- **5 suggested colour schemes**, which might inspire you
- **3 types of materials**: PVC/Vinyl, aluminium, WOOD – choose the best one for you home
- **Unlimited possibilities** for door design, which you can do by yourself with a convenient on-line configurator

Scan the code,
to go to the configurator

Due to limitations of printing technology, the colours shown in the folder are illustrative and may slightly vary from the actual colours.

The colour of a leaf may differ from the colour of a doorframe or a sidelight. It results from the product characteristics – leaves are veneered, while door frames are made of solid glue-laminated wood. Therefore, this colour difference is not covered by warranty. The shown product visualisations are illustrative. In the case of garage doors, the frame is not a part of garage door delivery.

Our Customers' Choice - Your Choice

We analysed orders completed by us, in order to check, which HarmonyLine compositions are the most popular among DAKO customers.

WHAT DID WE FIND?

The best-seller's podium belongs to: **EUNIKA, NILA and SOTERA**, and our investors are eager to adapt the looks of joinery to their needs by picking individual colours and veneers!

Using that knowledge, we decided to present you the most popular examples of patterns with **the most frequently chosen colours and the latest options in wood-like veneers & stone décors**.

CREATE YOUR OWN, UNIQUE PATTERN!

Modify colours and design to create your own, unique composition with the use of wide range of DAKO windows, doors, garage doors and roller shutters.

TREND: Natural Materials

The use of natural materials for door or garage door finishes lets you achieve a one-of-a-kind visual effect! The stone veneer used as a décor offers completely new possibilities in style and colour matching.

EUNIKA
Harmony line

Stone décors are available in 16 unique variants, which enables to match them to virtually any colour scheme and style, including, but not limited to:

Blanco

Rustique

Arcobaleno colore

Cobre

Arcobaleno colore

Burning forest

Galaxy black

D. black

TREND: Strong Colour

Strong, saturated hues, a mixture of contrasting colours and textures – all of these enable you to bring modernity and freshness to your designs. Don't be afraid to experiment, create your own colour key that harmonises with your home's style!

You can obtain original combinations with the use of wide palette of RAL colours – some of the most fashionable ones are:

Jet black RAL 9005

Anthracite grey RAL 7016

Mahogany brown RAL 8016

Brown red RAL 3011

Moss green RAL 6005

Sulphur yellow RAL 1016

Silver grey RAL 7001

TREND: Many Faces of Oak

Class and elegance at its fashionable best. The toned-down combination of basic colours with classic finish of wood-like veneer is a simple way of making your home exceptionally stylish.

NILA
Harmony line

Wood-like veneers are available in an incredibly wide range of colours – the latest being oak variants, among others:

Monument oak

Bleached oak

Desert oak

Natural oak

Golden oak

Swamp oak

EUNIKA

composition

A perfect balance of colours and textures highlighted by a striking symmetry of the door design, setting the tone for the whole composition

PRESTIGIOUS POLISH BRAND NEAR YOU

Involvement, passion and hard work are the features that made DAKO, a family business founded in 1994 in Nowy Sącz, a thriving brand with a well-established position in the joinery industry. Modern machinery park with a surface of 33,800 m², operating under the supervision of skilled experts, lets us deliver top quality products to our customers. Thanks to our extensive network of well-equipped showrooms and expertise of our consultants, DAKO products are available nearly everywhere.

WORLD-WIDE EXPERIENCE SINCE 1994

The long history of our brand is not only comprised of successes on the domestic market, but also on foreign ones, such as Belgian, French, German, Italian, Canadian, New Zealand, American and Japanese, among others. Currently, over a half of our production comprises of various products finding their way to customers in export markets throughout Europe, and the brand owes their trust to the high quality of offered services.

COMPREHENSIVE PRODUCT OFFER

The high quality of our brand's products is not only confirmed through numerous and systematically conducted studies and certifications, or a long warranty period. The most reliable and valuable opinions on our products come predominantly from a growing number of satisfied customers, who put their trust in DAKO's windows, doors, roller shutters and garage doors by choosing our brand's comprehensive offer to fulfil their dreams of owning their own home. That fact makes us especially proud.
