Rustical style derives an inspiration from the rural tradition. Its characteristic features are, among others, the natural materials: stone or wooden floor, plain decorative elements and details made of wrought iron. Currently, the newly emerging projects are an inspiring link

RUSTICAL STYLE

between tradition and modern solutions. Also, the brickly walls and plain roof tile are typical for this style.

- perfect balance between quality and price

U-factor= 0,14*
Profile thickness: **3 35/64 in**

TRADITIONAL

Inspired by the alpain, mountain cottages. The charm and beauty of the Alpine nature is reflected in the interiors' design - rustical furniture, wooden elements and natural colours. The houses created in this style very often have the finishing elements

CHALET STYLE

made of stone which create a perfect match with the natural wood and the warmth of candles and fireplace.

- design and decorative elements harmoniously matched with doors
- deep colour consistent with other products' colours
- functional and reliable solution

FRESH INNOVATION

There are few main features typical for the Scandinavian style - functionality, simplicity and the usage of the natural materials. It is important to optically enlarge the interiors - this can be achieved due to the minimal design and bright colours.

SCANDINAVIAN STYLE

Apart from the most popular white shade, the designers very often opt for grey, beige and blue tones.
