

Aluminium Sliding Door with Flush Frame

DA-SkyLine

In times when minimalism is the leading aesthetic of contemporary design, DA-SkyLine by DAKO, the high-quality sliding door system with a concealed frame, becomes one of the brand's flagship solutions.

Luxury design

Concealing the frame in walls, ceiling and floor gives any building with the DA-SkyLine door a luxurious character.

Near unlimited glazing capabilities

The use of narrow aluminium profiles for the structure maximises the glazing surface, blurring the border between the interior and the outside world. That's why it's a perfect solution for anyone, who wishes to fill their space with light and showcase the vistas.

Top-grade thermal insulation

The panoramic glazing does not rule out an efficient thermal insulation. For DA-SkyLine, the frames are flush with walls, floor and ceiling, which allows its structure to maintain excellent thermal insulation parameters.

Automatic opening

Equipped with a motor, DA-Skyline patio doors can be controlled remotely. They can be opened and closed via smartphone or wireless remote control.

Technische eigenschappen:

- ✓ U-value: from 0.85 W/(m²K)*
- ✓ Installation depth: Sash: 71 mm | Doorframe: 190 mm
- ✓ Visible panel interlocking width – 25 mm
- ✓ Door height – 2400 mm
- ✓ Door width – 4000 mm
- ✓ Pane: Suncool 70/35 ESG6/16/ESG6/16/44.2 P2 U=0.5 W/(m²K)
- ✓ No. of chambers/gaskets – 3/2

* for doors with sash dimensions of 2070 x 3444 mm, with a triple-glazed filling with a Ug coefficient of 0.5 W/(m²K) and a warm edge spacer
